

Environmental Policy

BALLARD™

Environmental Commitments

Ballard's company vision is to deliver fuel cell power for a sustainable planet. We use our fuel cell expertise to deliver valuable and innovative solutions to our customers globally, create rewarding opportunities for our team, provide extraordinary value to our shareholders and power the hydrogen society.

We act as corporate leaders with respect to environmental sustainability and stewardship.

Further, we make these specific commitments, we will:

- Strive to reduce our environmental impact, including reducing pollution
- Conduct our operations in an environmentally sound manner by applying an Environmental Management System
- Comply with or exceed all applicable environmental legal and regulatory requirements
- Strive to train our employees in best practices to support our environmental goals
- Strive to develop our manufacturing processes with a focus on energy and resource efficiency
- Promote environmental responsibility along the value chain by encouraging suppliers, contractors, and customers to adopt international environmental standards
- Strive to develop and market products and systems which are resource efficient and facilitate the use of renewable energy sources
- Consider environmental impacts in the evaluation process for new operations and products
- Strive to continually improve our Environmental Management System through the setting and reviewing of our environmental objectives

This environmental policy statement is an integral part of Ballard's commitment to sustainability. The Ballard Executive Team will strive to fulfil these commitments and provide the appropriate resources and support to achieve these commitments.
